## Experience

**Datadog** Product Designer

11/2021 - Present

Design owner for Teams at Datadog, which is a system addressing the relevance, access, and personalization needs of our large- and medium-sized customers

Led the product 0-1 through major releases, serving 8,000 organizations and counting

Act in a product and platform design capacity to improve Datadog as a whole

**Bloomberg LP** Interaction Designer

10/2019 - 11/2021

Was responsible for research and design across News, Charts, and Maps on the Bloomberg Terminal, serving all of Bloomberg's 330,000+ professional users

My work defined the way users search for securities and annotate their charts within the Terminal

**Invesco** UX Designer

07/2017 - 10/2019

Built in-house products around the needs of our sales and investment personnel

Generated time savings worth >\$550,000 annually by solving for salesperson call preparation needs

## Education

**University of Washington**

Class of 2017

BS in Informatics, focused in HCI
